

# PUBLIC HEALTH DEVON OUTCOMES REPORT

## 16TH JUNE 2015

### DEVON COUNTY COUNCIL

#### UPDATES ONLY VERSION

The public health outcomes framework sets the context and 'strategic direction' for the new public health system with the vision of 'improving and protecting the nation's health while improving the health of the poorest fastest'. There are two overarching indicators concerning healthy life expectancy and life expectancy, and four domains with 66 further indicators, and around 130 sub-indicators. The domains are improving the wider determinants of health, health improvement, health protection, and healthcare public health. A prioritisation exercise was completed in September 2013 which looked at performance, human impact, and financial costs for these indicators and the prioritisation grid which lists out all indicators is available at [www.devonhealthandwellbeing.org.uk/jsna/performance/phof](http://www.devonhealthandwellbeing.org.uk/jsna/performance/phof)

Three types of indicators were identified from this exercise:

**Core Indicators** – these are indicators which have a large impact in terms of numbers affected and impact, or which are high spend areas for Public Health Devon. These indicators are covered by this report.

**Improvement Indicators** – these are indicators for areas where performance is poorer than expected or deteriorating and improvements to outcomes are required. These indicators are covered by this report.

**Monitoring Indicators** – these cover areas where local outcomes are positive and the scale, human impact and cost are not high. These indicators can be monitored through the Public Health Outcomes Tool: [www.phoutcomes.info](http://www.phoutcomes.info) and other sources.

There are six main analyses in each individual indicator report:

**South West Benchmarking** – showing the position of Devon relative to other upper tier or unitary authorities in the South West, the South West rate and the national rate.

**Local Authority District** – highlighting differences within Devon between local authority districts.

**Local Authority Comparator Group** – showing Devon's position relative to the national family of peer authorities

**Clinical Commissioning Group and Locality Comparison** – highlighting differences within Devon between the Clinical Commissioning Groups and sub localities.

**Trend and Future Trajectory** – showing change over time on the selected indicator compared to the South West and England, and where available a future trajectory based on local targets or ambitions.

**Inequalities** – illustrating the extent of inequalities within Devon for the selected indicator. These will typically focus on social deprivation, but may relate to age, sex or other factors as appropriate.

Indicators which have been updated since the last report are marked as:

**\*UPDATED INDICATOR\***

Any queries on this report should be directed to the Devon Public Health Intelligence Team at [publichealthintelligence@devon.gov.uk](mailto:publichealthintelligence@devon.gov.uk)

## Public Health Devon Outcomes Report: Indicator List and Summary

Domain	RAG	Indicator	Value	Trend	Dev/SW/Eng
Overarching Indicators	G	0.01 Healthy Life Expectancy Male	66.0		
	G	0.01 Healthy Life Expectancy Female	67.7		
	G	0.02 Gap in Life Expectancy Male	5.2		
	G	0.02 Gap in Life Expectancy Female	3.3		
1. Wider Determinants of Health	A	1.01 Children in Poverty	12.7%		
	G	1.10 Killed or Seriously Injured on Roads	37.7		
	A	1.11 Domestic Violence	13.5		
	A	1.17 Fuel Poverty *	12.5%		
	G	1.18 Social Contentedness	47.5%		
2. Health Improvement	G	2.03 Smoking at Time of Delivery	12.2%		
	A	2.04 Under 18 Conception Rate *	20.7

# PUBLIC HEALTH DEVON OUTCOMES REPORT

## Priority 1. Improving the Wider Determinants of Health

### Indicator 1.17 Fuel Poverty

Period: 2013

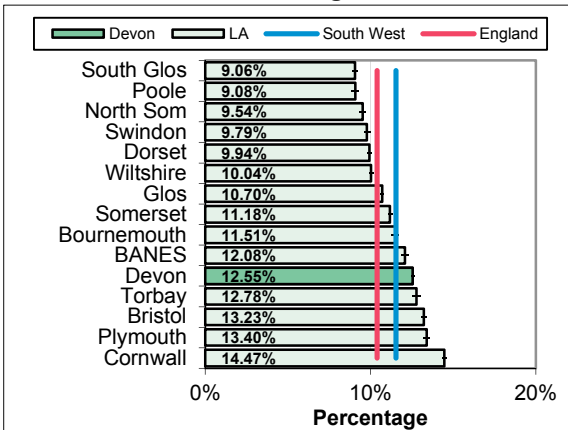

**\*UPDATED INDICATOR\***

RAG Rating	
	Green
A	Amber
	Red

**Overview** Just over one in eight households in Devon are in fuel poverty (12.55%), which is above the South West (11.54%), local authority comparator group (9.27%), and England (10.39%) rates. Within Devon the highest levels of fuel poverty were seen in Torridge (14.02%) and the lowest were seen in East Devon (11.02%). Levels of fuel poverty increased between 2011 and 2013 in Devon but fell in many other areas of the country.

**Equalities** Fuel poverty is more prevalent in groups with low household incomes, including pensioners, persons on benefits, and working families with below average incomes. The low wage economy, particularly in North and West Devon and higher living costs contribute to levels of fuel poverty locally. Fuel poverty is highest and has increased fastest in the most deprived areas.

## PUBLIC HEALTH DEVON OUTCOMES REPORT INDICATOR SPECIFICATION

### Priority 1. Improving the Wider Determinants of Health Indicator 1.17 Fuel Poverty

Period: 2013

<b>Description</b>	The percentage of households that experience fuel poverty based on the "Low income, high cost" methodology
<b>Source</b>	Department of Energy and Climate Change (DECC) <a href="https://www.gov.uk/government/publications/2012-sub-regional-fuel-poverty-data-low-income-high-costs-indicator">https://www.gov.uk/government/publications/2012-sub-regional-fuel-poverty-data-low-income-high-costs-indicator</a>
<b>Update Frequency</b>	Annually, around 18 months in arrears
<b>Outcomes Framework</b>	Public Health Outcomes Framework Indicator 1.17
<b>Detailed Specification</b>	Under the "Low Income, High Cost" measure, households are considered to be fuel poor where: 1.They have required fuel costs that are above average (the national median level) 2.Were they to spend that amount, they would be left with a residual income below the official fuel poverty line. The key elements in determining whether a household is fuel poor or not are income, fuel prices, fuel consumption (which is dependent on the dwelling characteristics and the lifestyle of the household)
<b>Chart Notes South West</b>	Compares Upper Tier / Unitary Local Authorities in the South West Region. Error bar is 95% confidence interval.
<b>Chart Notes Local Authority</b>	Compares Local Authority Districts in the Devon County Council area. Error bar is 95% confidence interval.
<b>Chart Notes Comparator</b>	Compares Devon to similar upper tier / unitary local authorities using the 15 closest comparator councils from the Institute of Public Finance (IPF) statistical neighbours. Error bar is 95% confidence interval.
<b>Chart Notes CCG/Locality</b>	Displays rates for the two Clinical Commissioning Groups in the wider Devon area, their localities, and their sub-localities. This is based on the geographic areas defined at Lower Super Output Area level <a href="http://www.devonhealthandwellbeing.org.uk/library/maps">www.devonhealthandwellbeing.org.uk/library/maps</a> . Error bar is 95% confidence interval.
<b>Chart Notes Trend</b>	Compares Devon rate with South West region and England over time.
<b>Chart Notes Inequalities</b>	Compares areas within Devon based on area deprivation. National deprivation quintiles from the 2010 Indices of Deprivation (Index of Multiple Deprivation) used.

# PUBLIC HEALTH DEVON OUTCOMES REPORT

## Domain 2. Health Improvement

### Indicator 2.04 Teenage Conception Rate

Period: 2014 Q1 Rolling Year **\*UPDATED INDICATOR\***

RAG Rating	
	Green
A	Amber
	Red

**Overview** There were 256 conceptions in Devon between April 2013 and March 2014 for females aged under 18, with around half leading to a birth. The latest annual conception rate is 20.7 per 1,000 females compared with 20.0 for the South West, 20.3 for the local authority comparator group and 23.9 for England. Higher rates are seen in Exeter, Mid Devon and Teignbridge but the differences are not statistically significant. Stronger decreases in the national rate mean the gap has narrowed.

**Equalities** There is a very clear link between area deprivation and teenage conception, with rates in the most deprived areas around four times higher than the least deprived areas both locally and nationally. Most teenage conceptions occur at the age of 17, and there are only a small proportion under the age of 16 (around 50 to 60 per annum), and less than 10 births per annum to under 16s.

## PUBLIC HEALTH DEVON OUTCOMES REPORT INDICATOR SPECIFICATION

**Domain 2.** Health Improvement  
**Indicator 2.04** Teenage Conception Rate  
**Period:** 2014 Q1 Rolling Year

<b>Description</b>	Conceptions in women aged under 18 per 1,000 females aged 15-17.
<b>Source</b>	Office for National Statistics
<b>Update Frequency</b>	Quarterly - 15 months in arrears (Q2 2014 due September 2015)
<b>Outcomes Framework</b>	Public Health Outcomes Framework Indicator 2.04
<b>Detailed Specification</b>	Number of pregnancies that occur to women aged under 18, that result in either one or more live or still births or a legal abortion under the Abortion Act 1967. Population aged 15 to 17 derived from Office for National Statistics Mid Year Population Estimates. Conceptions are divided by population and then multiplied by 1,000.
<b>Chart Notes South West</b>	Compares Upper Tier / Unitary Local Authorities in the South West Region. Error bar is 95% confidence interval.
<b>Chart Notes Local Authority</b>	Compares Local Authority Districts in the Devon County Council area. Error bar is 95% confidence interval.
<b>Chart Notes Comparator</b>	Compares Devon to similar upper tier / unitary local authorities using the 15 closest comparator councils from the Institute of Public Finance (IPF) statistical neighbours. Error bar is 95% confidence interval.
<b>Chart Notes CCG/Locality</b>	Rates are not currently available at a Clinical Commissioning Group and locality level.
<b>Chart Notes Trend</b>	Compares Devon rate with South West region and England over time. Trajectory is based on 0.5 fall in rate per annum from 2009 baseline.
<b>Chart Notes Inequalities</b>	Compares rates in the wards with the highest teenage conception areas with the Devon average over time.

# PUBLIC HEALTH DEVON OUTCOMES REPORT

## Domain 2. Health Improvement

### Indicator 2.22 Percentage Offered an NHS Health Check

Period: 2014-15 Q4 cumulative **\*UPDATED INDICATOR\***

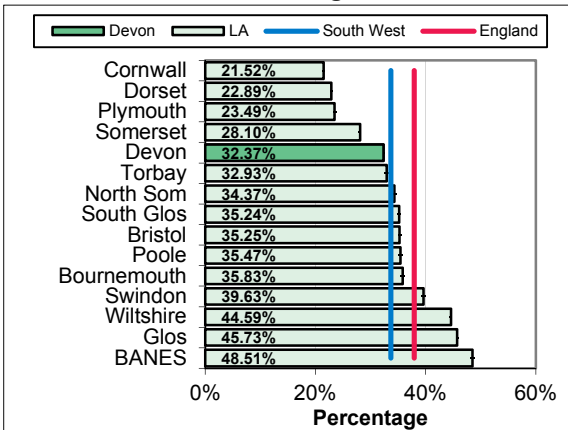

#### RAG Rating

	Green
A	Amber
	Red

**Overview**  
79,999 people in Devon have been offered a health check since April 2013. This represents 32.37% of the eligible population (247,160), which is below the South West (33.67%), comparator group (39.42%) and England (37.94%) rates. Within Devon rates are highest in East Devon, Torridge and West Devon. Within local CCGs, rates are highest in the South Devon and Torbay localities. The percentage offered continued to rise in Q4 narrowing the gap to the South West average.

**Equalities**  
Whilst practices covering areas with below average deprivation have the lowest offered rates, the pattern by deprivation is mixed, with high rates in practices with above average levels of deprivation highlighting that the programme is more established in Torridge, Teignbridge, Exeter and the Exmouth area and also in the least deprived practices.

## Domain 2. Health Improvement

### Indicator 2.22 Percentage Receiving an NHS Health Check

Period: 2014-15 Q4 cumulative **\*UPDATED INDICATOR\***

#### RAG Rating

	Green
A	Amber
	Red

**Overview**  
39,685 people in Devon received a health check since April 2013. This represents 16.06% of the eligible population (247,160), which is above the South West (15.70%), but below the comparator group (18.09%) and England (18.56%) rates. Within Devon rates are highest in Torridge and Teignbridge. Within local CCGs, rates are highest in the South Devon and Torbay 'Moor to Sea' locality. The percentage receiving a health check continued to rise in Q4, narrowing the gap to other South West areas.

**Equalities**  
The pattern by deprivation is mixed at present, with high rates in areas with above average levels of deprivation and in the least deprived practices, whereas rates in the other three practice deprivation quintiles were broadly similar.

## Domain 2. Health Improvement

### Indicator 2.22 NHS Health Check Uptake Rate

Period: 2014-15 Q4 cumulative **\*UPDATED INDICATOR\***

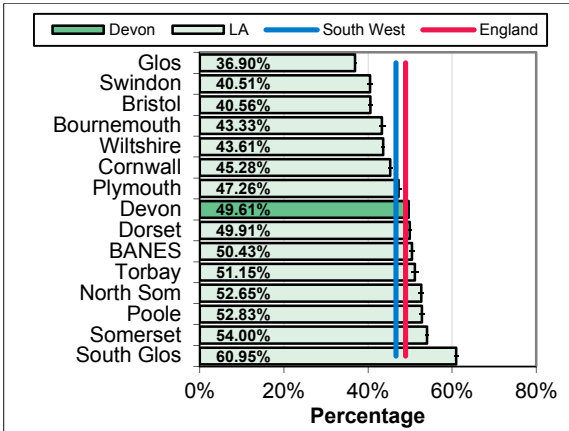

#### RAG Rating

	Green
A	Amber
	Red

**Overview**  
The uptake rate for NHS health checks in Devon current stands at 49.61%, which is above the South West (46.64%), local authority comparator group (45.89%) rates, and England (48.93%) rates. Within Devon rates are highest in the South Hams, Teignbridge and Mid Devon, and lowest in Exeter and West Devon. Within local CCGs, rates are highest in the South Devon and Torbay 'Moor to Sea' and 'Coastal' localities. The uptake rate has improved over recent quarters.

**Equalities**  
The pattern by deprivation is mixed at present, with high rates in areas with below average levels of deprivation and in the most deprived areas, which is more indicative of variations between different areas of Devon.
